

## Mommy Pads

Remember to bring your 4" square Mommy Pads to the May Guild meeting. They are delivered to the Children's Healthcare of Atlanta's NICU department. The "mommy scented" pads are placed in the crib to soothe the infant during the healing process. As a side note, seeing one of those mommy pads in my granddaughter's NICU crib last year helped to soothe Grammy as well! Thank you to the Gwinnett Quilters' Guild!
