

How to Make a Mug Rug from 3 charm squares (5 x 5)

1. Lay 3 charm squares side by side with a contrasting one in the middle.
2. Sew them together with right sides together.
3. Fold them in half and cut the middle charm square down the middle. You now have a front and back to your mug rug.
4. Cut a piece of batting the same size as your front and back. Press onto one side. (you can quilt the front side now if desired)
5. With right sides together, sew the front and back together, leaving 2-3 inches open for turning.
6. Clip/trim the corners and flip your mug rug right sides out. Topstitch around the outside and add some quilting if desired.
